NuView CORT Payroll Covers all your Unique Domestic and Global Business Needs

NuView CORT Payroll

Ignite's NuView U.S. Payroll module puts you in control of your in-house payroll. This module provides solutions to complex payroll needs, while providing the flexibility and control required by today's businesses.

Highlights:

- Process payrolls on your schedule – not a predetermined vendor schedule
- File your own taxes (and save money) or interface with a tax filing service
- Maintain multiple state and local earnings and taxes by employee
- Access multiple pay rates by employee
- Multiple payroll data entry options
- Audit payroll data and correct errors before checks are printed
- Export data into Excel format for additional analysis and reporting
- Print manual checks and process expense reimbursements on demand
- Process your current year payroll before the prior year is finished
- Access to the prior year's payroll, taxes and deductions
- Unlimited on-line history
- Client self-service portal

Global Payroll

Ignite's NuView CORT Payroll provides outsourced international payroll services to global corporations via an integrated approach with our partners, Celergo and iiPay. This solution ensures administration and compliance through a network of local experts in each country.

Highlights:

- International regulator
- Localization of forms
- Instant access to detailed pay data by payroll and employee
- Extensive reporting capabilities
- Tax and social payments to the appropriate governments
- Statutory paperwork for new hires, terminations, payroll and year-end filings, as needed
- Payments to benefit providers worldwide including exotic currencies, split payments and offshore jurisdictions
- Cash payments, payment of net pay and expense reimbursements to expatriates on home, host or split payrolls
- Foreign currency management
- Data privacy/country specific rules
- Improved transaction control
- Instant access to detailed pay data by payroll/employee

Third Party Payroll Integration

Ignite's NuView CORT Payroll provides third party payroll integration which allows clients to continue using their current payroll vendor while gaining the advantages of Ignite's advanced HR payroll components.

Highlights:

- Single or bidirectional interfaces. HR to Payroll or Payroll to HR. Any data fields such as time worked, earnings, deductions and accruals
- On-demand or scheduled data exchange
