

ScaleArc Kickstart Services

Accelerate using your new ScaleArc load balancing appliance

Installation and Configuration Services to Kickstart Your 100% Uptime Initiatives

All new ScaleArc customers have the choice to implement ScaleArc or work directly with Ignite ScaleArc experts to quickly get started with delivering the value of the ScaleArc load balancing appliance for your organization.

Kickstart Services, which include configuration and installation of the ScaleArc appliance, are delivered by Ignite's global Professional Services organization. Customers choose ScaleArc Kickstart Services to:

- Optimize the Appliance: Ensure configuration is aligned to specific goals
- Accelerate Time-to-Value: Speed-up installation for fastest time to use
- Limit resource requirements: Lessen or entirely eliminate added configuration and installation work from already stretched staff who are not yet ScaleArc experts

ScaleArc Kickstart Services Packages

	Small	Medium	Large	Custom Price based on scope and sizing efforts
ScaleArc Cores	4-7	8-11	12-20	21+
Time to Complete Install	2 weeks	3 weeks	3-4 weeks	Environment Dependent

*One small package for one product is included annually in the ScaleArc Platinum Customer Support Program.
Custom professional services are also available to meet specific customer requirements.*

DON'T DELAY

Start Providing Valuable Load Balancing Capabilities To Your Organization Today

- Build highly available database environments
- Ensure zero downtime during database maintenance, and reduce risk of unplanned outages by automating failover processes and intelligently redirecting traffic to database replicas
- Effectively balance read and write traffic to dramatically improve overall database throughput
- Consolidate database analytics into a single platform allowing administrators and production support to make more efficient and intelligent decisions, thus saving time and money
- Seamlessly migrate to the cloud and between the platforms without incurring application downtime
