That's why, in addition to the benefits outlined in IgniteTech's Platinum Support Program for all IgniteTech solutions, the following Firm58 solution-specific professional services are also included in our Platinum Support Program for Firm58 customers.

Custom Reporting

Custom Reporting is a Platinum-exclusive service that allows you to request on-demand custom reports* as needed to maximize the value of your Firm58 implementation. Our team of experts will work closely with you to define, build and deliver custom reports tailored to your needs. This service addresses use cases such as:

- **Compliance:** Ensure compliance with all statutory and regulatory requirements.
- **Profitability Analysis:** Test and validate assumptions by conducting what-if analyses to optimize trade costs, non-trade costs and pricing for maximum revenue and profits.
- **Business Intelligence:** Support business decisions with data by identifying key products and services making and losing money, helping you to isolate profitable and unprofitable customers.

No matter the use case, we work closely with you to deliver custom reports relevant to your needs.

*On-demand reporting is limited to requests that can be served via single or dual table extracts and constrained by the existing schema definitions of the underlying databases.
