## *Platinum Services For*

# BRYTERCX

IgniteTech's Platinum Support Program is designed to deliver a higher value experience to include customized, professional services. That's why, in addition to the benefits outlined in IgniteTech's Platinum Support Program for all IgniteTech solutions, the following BryterCX solution-specific professional services are also included in our Platinum Support Program for BryterCX customers.

## Add / Update Data Sources

One of the top important prerequisites to reap the full benefit of BryterCX, [per Forrester](#), is to ensure quality data is complete in your aggregated data set.

You need sufficient, high quality data for your CX team to be able to generate accurate customer journey insights. It's important to ensure the "plumbing" is not only complete but includes high quality content ensuring mapping is updated wherever needed.

## Map / Update Customer Journeys

The second important prerequisite identified in the [Forrester report](#) to reap the full benefit of BryterCX is to ensure your journey data is current and updated.

This service partners our data analysts with your CX team to ensure the CX journeys are modeled correctly both in terms of accuracy and current CX goals.

## CX Consultant Analysis and Insights

Your team will benefit from our top CX consultants who review hundreds of journeys across multiple customers, often in similar industries, who will provide observations, benchmarks and insights into your CX journey data.

The consultants will identify specific steps and assist in implementing improvements in a variety of updates, for example, reducing the number of steps in a journey, identifying where there is "leakage" of a customer moving from one channel to another, and working to decrease "drop-offs" where a customer exits the journey before the identified goal.
