PAYROLL MANAGEMENT

Human Resource Management System

NuView includes two HR Tech products: NuView Human Capital Management, a unified enterprise HR management system, and NuView CORT Payroll, a full-spectrum online enterprise payroll platform. Both are available as an on-premise or hosted solution.

Customer Success

Law firm uses NuView's HRMS solution to access information and easily create and run reports as needed

NuView HRMS

DEPLOYMENT
SaaS

"NuView's HRMS allowed us to take stronger ownership of HR information and remove any redundancies. It's been easier to share that data with other departments and offices."

SUMMARY

This law firm needed a HR system that was configurable and had a self-service portal with a user-friendly feel and easily reportable data. They also wanted a system that could be maintained
in-house.

WHY NUVIEW

They chose IgniteTech's NuView Core HRMS because of the system's ease of configuration. Many systems accommodate user-defined fields, but the firm felt that NuView took this capacity to the next level by allowing users to add their own fields wherever necessary.

CUSTOMER BENEFIT

NuView's HRMS has helped the firm by giving it a stronger ownership of HR information. It has also provided a simplified open enrollment process and enriched business insights and accurate point-in-time reports.

CUSTOMER OUTCOME

With the ease of creating their own user-defined fields, the firm has been able to create an additional 20 forms for use in their production system while also modified many other existing forms. Integrating custom elements into the structure of the system has made the reporting process much easier.

SOLUTION BENEFITS

- Boost productivity, streamline workflows, manage payroll and align human resource programs and initiatives
- NuView Human Capital Management: Manage and organize a global workforce from a unified HR Management platform
- NuView CORT Payroll: Address full-spectrum enterprise payroll needs with the flexibility, control and insight needed to support the unique aspects of any organization
