DEPLOYMENT

SaaS

“It is one of the best reference sources we now have at the library.”

Summary

This public library raised funding to go towards content that was 50 years old or older and have since digitized all papers from 1896 – 1962. This initiative began in 2012, and the library is now looking to expand this project.

Why Olive Software

The library was pushing to digitize their newspapers, for a very long time, and after much review, they felt Olive was the perfect solution for digitizing and archiving their newspapers.

Customer Benefit

Digital archives of the newspapers have been a huge success for the library’s patrons as well as for the library itself in terms of its reference staff. It has helped the community learn more about town history, their families and other past events.

Customer Outcome

Library staff is very happy with the outcome and are eager to continue their digital document archiving efforts.

Solution Benefits

- Turn digital content into revenue by harnessing robust content distribution models for additional revenue and audience growth and engagement
- Find new revenue streams by monetizing your content and generating new revenue streams from existing content
- Grow your audience and improve retention through leveraging proven apps, best practices, engagement tools and content distribution channels
- Reduce cost and pressure on internal circulation, content, IT and field sales resources
